## Additional Information

### What is the annual deductible?

Your plan's deductible is the amount of money that you pay first, before your plan starts to pay. You'll see that many services, especially preventive care, are covered by the plan without you needing to meet the deductible. The individual deductible applies if you enroll without dependents. If you and one or more dependents enroll, the individual deductible applies for each member only until the family deductible has been met. Deductible expense is applied to the out-of-pocket limit.

Participating provider expense and non-participating provider expense apply together toward your deductible.

### What is the out-of-pocket limit?

The out-of-pocket limit is the most you'll pay for covered medical expenses during the plan year. Once the out-of-pocket limit has been met, the plan will pay 100 percent of covered charges for the rest of that year. The individual out-of-pocket limit applies only if you enroll without dependents. If you and one or more dependents enroll, the individual out-of-pocket limit applies for each member only until the family out-of-pocket limit has been met. Be sure to check your Member Handbook, as there are some charges, such as non-essential health benefits, penalties, and balance billed amounts that do not count toward the out-of-pocket limit.

Note that there is a separate category for participating and non-participating providers when it comes to meeting your out-of-pocket limit. Only participating provider expense applies to the participating provider out-of-pocket limit. Only non-participating provider expense applies to the non-participating provider out-of-pocket limit.

### Payments to providers

Payment to providers is based on the prevailing or contracted PacificSource fee allowance for covered services. Participating providers accept the fee allowance as payment in full. Non-participating providers are allowed to balance bill any remaining balance that your plan did not cover. Services of non-participating providers could result in out-of-pocket expense in addition to the percentage indicated.

### Preauthorization

Coverage of certain medical services and surgical procedures requires a benefit determination by PacificSource before the services are performed. This process is called 'preauthorization'. Preauthorization is necessary to determine if certain services and supplies are covered under this plan, and if you meet the plan's eligibility requirements. You'll find the most current preauthorization list on our website, [PacificSource.com/member/preauthorization.aspx](https://www.pacificsource.com/member/preauthorization.aspx).
