- 3) Vendor ability to best match the listed criteria as specified.

DELIVERY AND START OF WORK:

The time-frame for the fire sprinkler line replacement to be completed is between June 6, 2016 and August 1, 2016.

REQUIREMENT FOR REPLACEMENT OF FIRE SPRINKLER LINES AT HIGHLAND HIGH SCHOOL – UPPER ‘B’.

1. This work pertains to the fire sprinkler system located in Upper ‘B’ building only. The main line and fire riser equipment was updated and/or replaced during the remodel work completed in the summer of 2015. ALL LATERAL LINES THAT COME OFF OF THE MAIN LINE AND RUN INTO THE CLASSROOMS IS TO BE CHANGED TO SCHEDULE 40 PIPE AND ALL EXISTING HEADS ARE TO BE REPLACED WITH NEW. The contractor is responsible for design, installation and government approval of the final system. The existing system presently is a dry system. It was designed and installed as a WET system and is to be a WET system once modifications have been complete. The system is currently operating as a dry system due to minute leakage problems associated with thin wall piping in classrooms.
2. The work is to be completed with minimal damage to existing conditions. Ceiling tile will need to be removed in the corridors to access the mainline. Contractor will be responsible to repair any damage done to the corridor ceilings during the work. The corridor ceilings are to be in the same condition at the completion of work as they are prior to the start of work.
3. Some wall and ceiling damage is expected to happen in the classrooms. The Contractor is to keep this at and absolute minimum. The District will repair the minor damage that is expected; however, repairs that are due to excessive abuse to the ceilings and walls by the Contractor will be charged back to the Contractor.
4. Any damage to floors, furnishings, doors or other items other than described above will be the Contractor’s responsibility to repair.
5. New installation shall meet all Federal, state and local code requirements. The contractor will be responsible for obtaining any required permits and/or jurisdictional approvals. The contractor is responsible for providing any and all drawings and specifications that are required by governmental agencies. The contractor will be required to provide proof of final approval from all governmental agencies having jurisdiction over this work once the installation is complete.
6. Contractor is responsible for coordination with the District any fire alarm modifications that might be required. The District will make any needed modifications to the alarm/monitoring system that might be required.

7. Contractor will provide industry standard warrantee for this application.
8. Contractor will provide operation and maintenance training of O&M personnel once the installation is complete. Complete as-built drawings, equipment drawings and operation & maintenance manuals are to be turned into the District Maintenance Department.
